
Title: Necromancy and Its Many Uses

Author: Liche Lord Anubus

Yes, I beleive that due
to the title and my
Lichly nature, you
assume that
Necromancy and
Myself are of an evil
dispostion. Hoevever,
I wish you to
reconsider, for
controlling the undead
(or becoming one of
them as in my case) is
not evil in itself, As I
am sure the Great
Sutek would agree,
and he is after all an
authority on Virtue
and Utility.

By using
Necromancy to
control the undead, we
can better use them
toward puposes o f
goodness...for
instance...people
would not have to work
so hard...thier undead
and nonsentiant
helpers could perform
the mundane tasks of
life leaving mortals
free to contemplate
and research and thus
improve the world!

Also, we must
remember that
sentient undead, such
as myself, have free
will and do not
neccessaily choose the
path of evil, although I
fear that with Liches
as well as among
humans, power seems
to lead to corruption
and evil ways...I hope
that I can avoid this
fate. Thus I leave

thee, with the wish
that you think about
the possible benefits
that allowing
necromancy in this
world could bring and
I hope that its greater
use will benefit us all
and lead to a better
understanding
between the undead
and humans.
